

ezMESURE

AGRÉGEZ COMPAREZ VISUALISEZ VALORISEZ

ezMESURE is a repository that centralizes on the national level the usage data representing how digital scientific resources are accessed by French higher education and research institutions.

ezMESURE offers an online interface which allows the dynamic visualization of consolidated and comparable usage events. These sets of data are generated by the the version of ezPAARSE locally installed by institutions and then aggregated on ezMESURE.

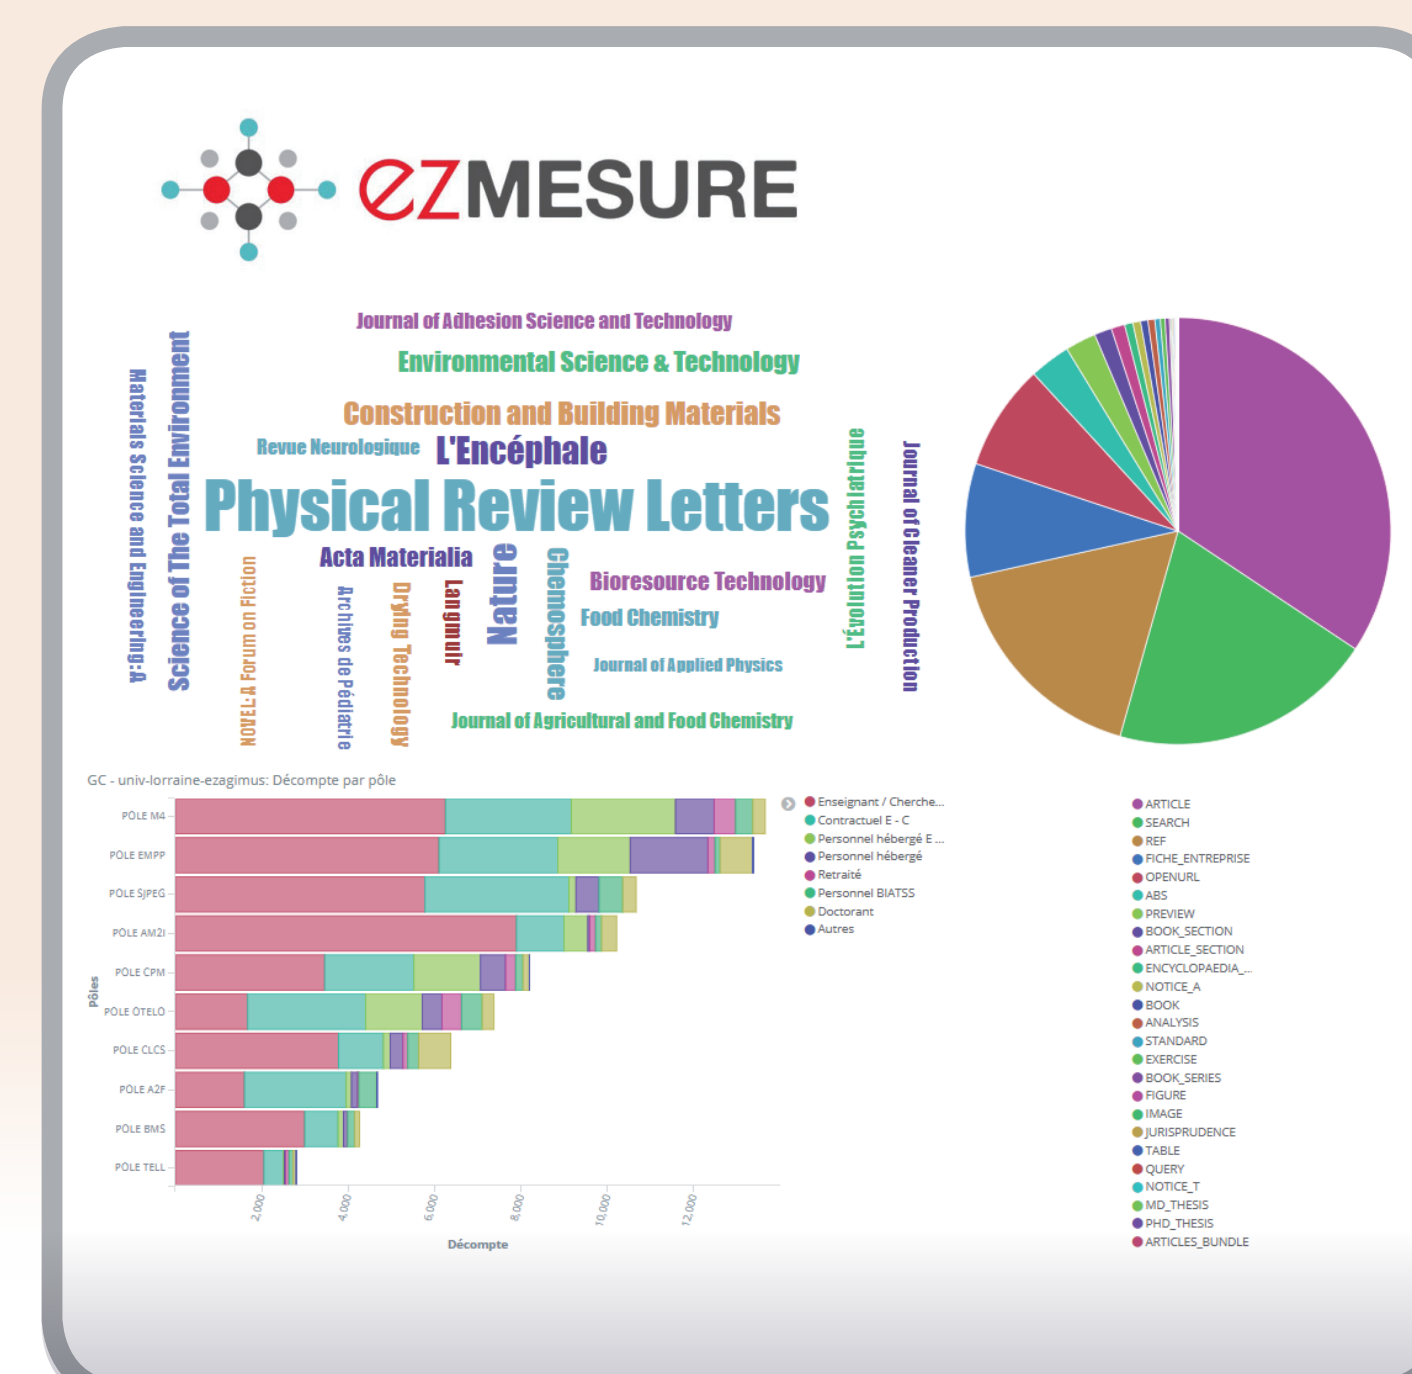

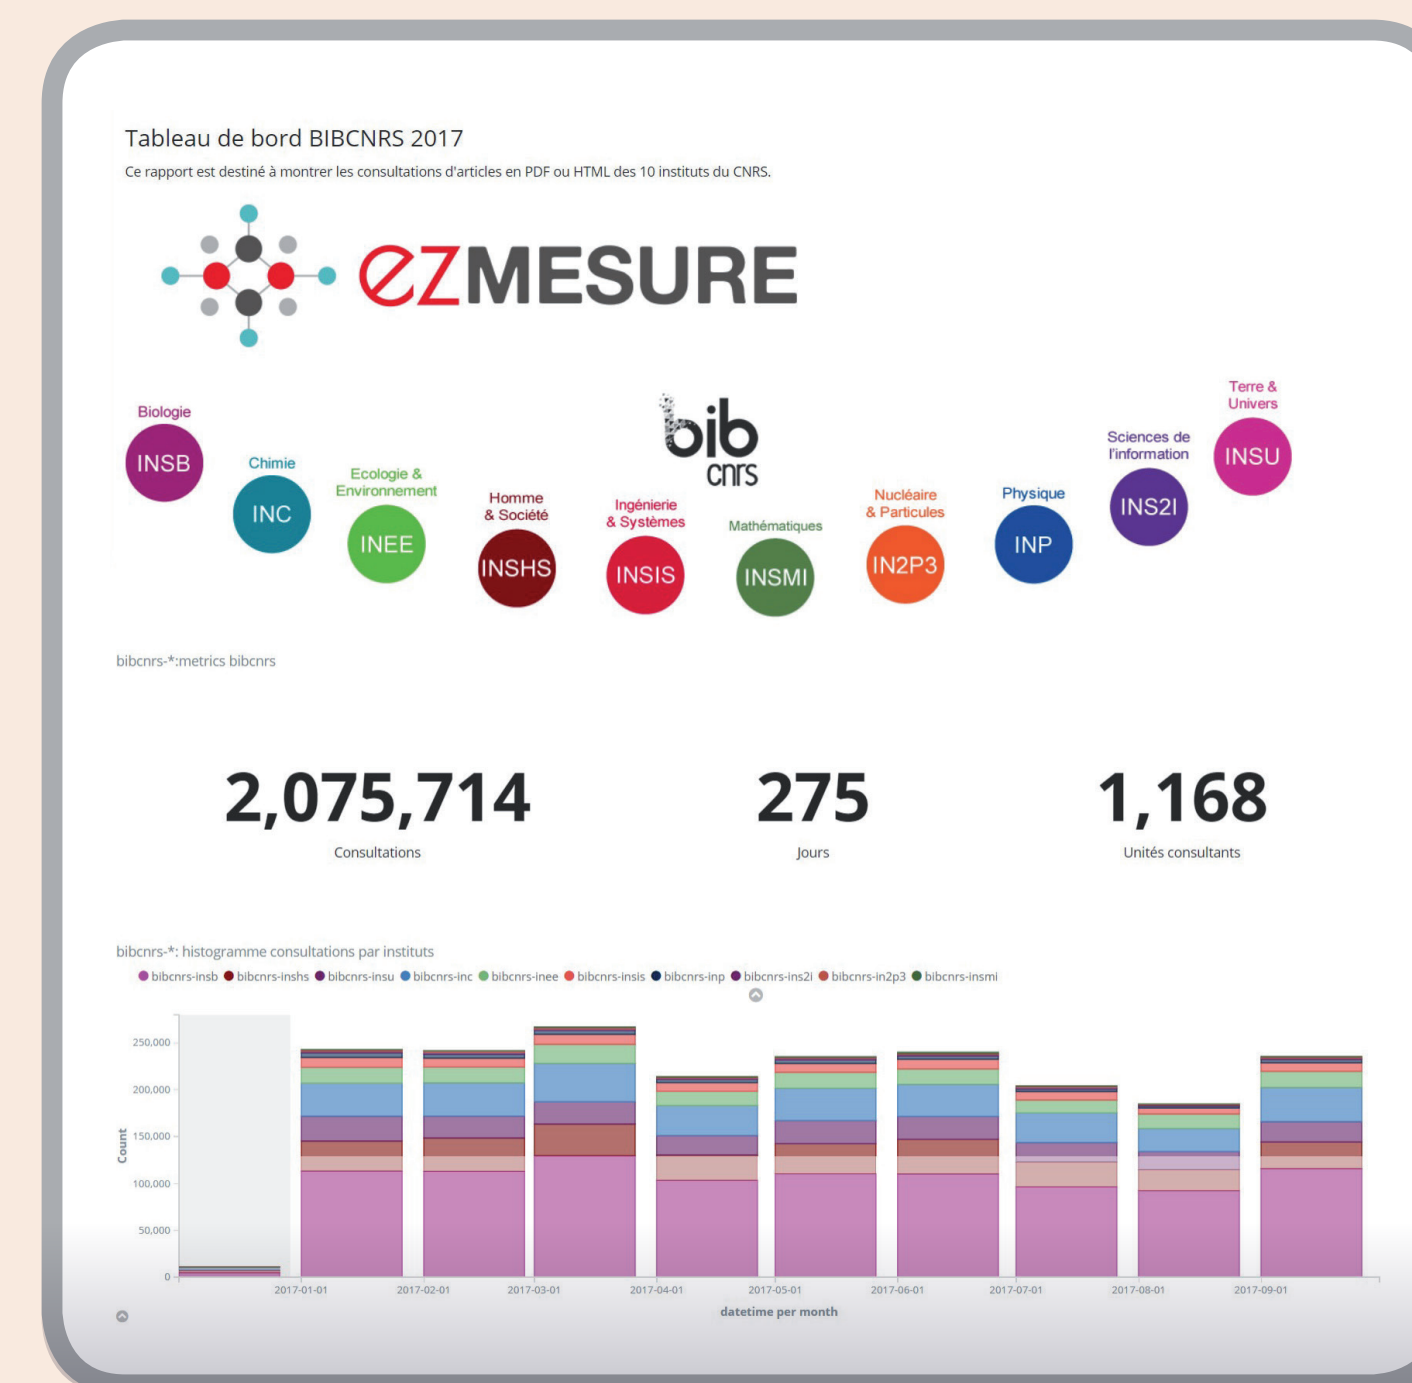

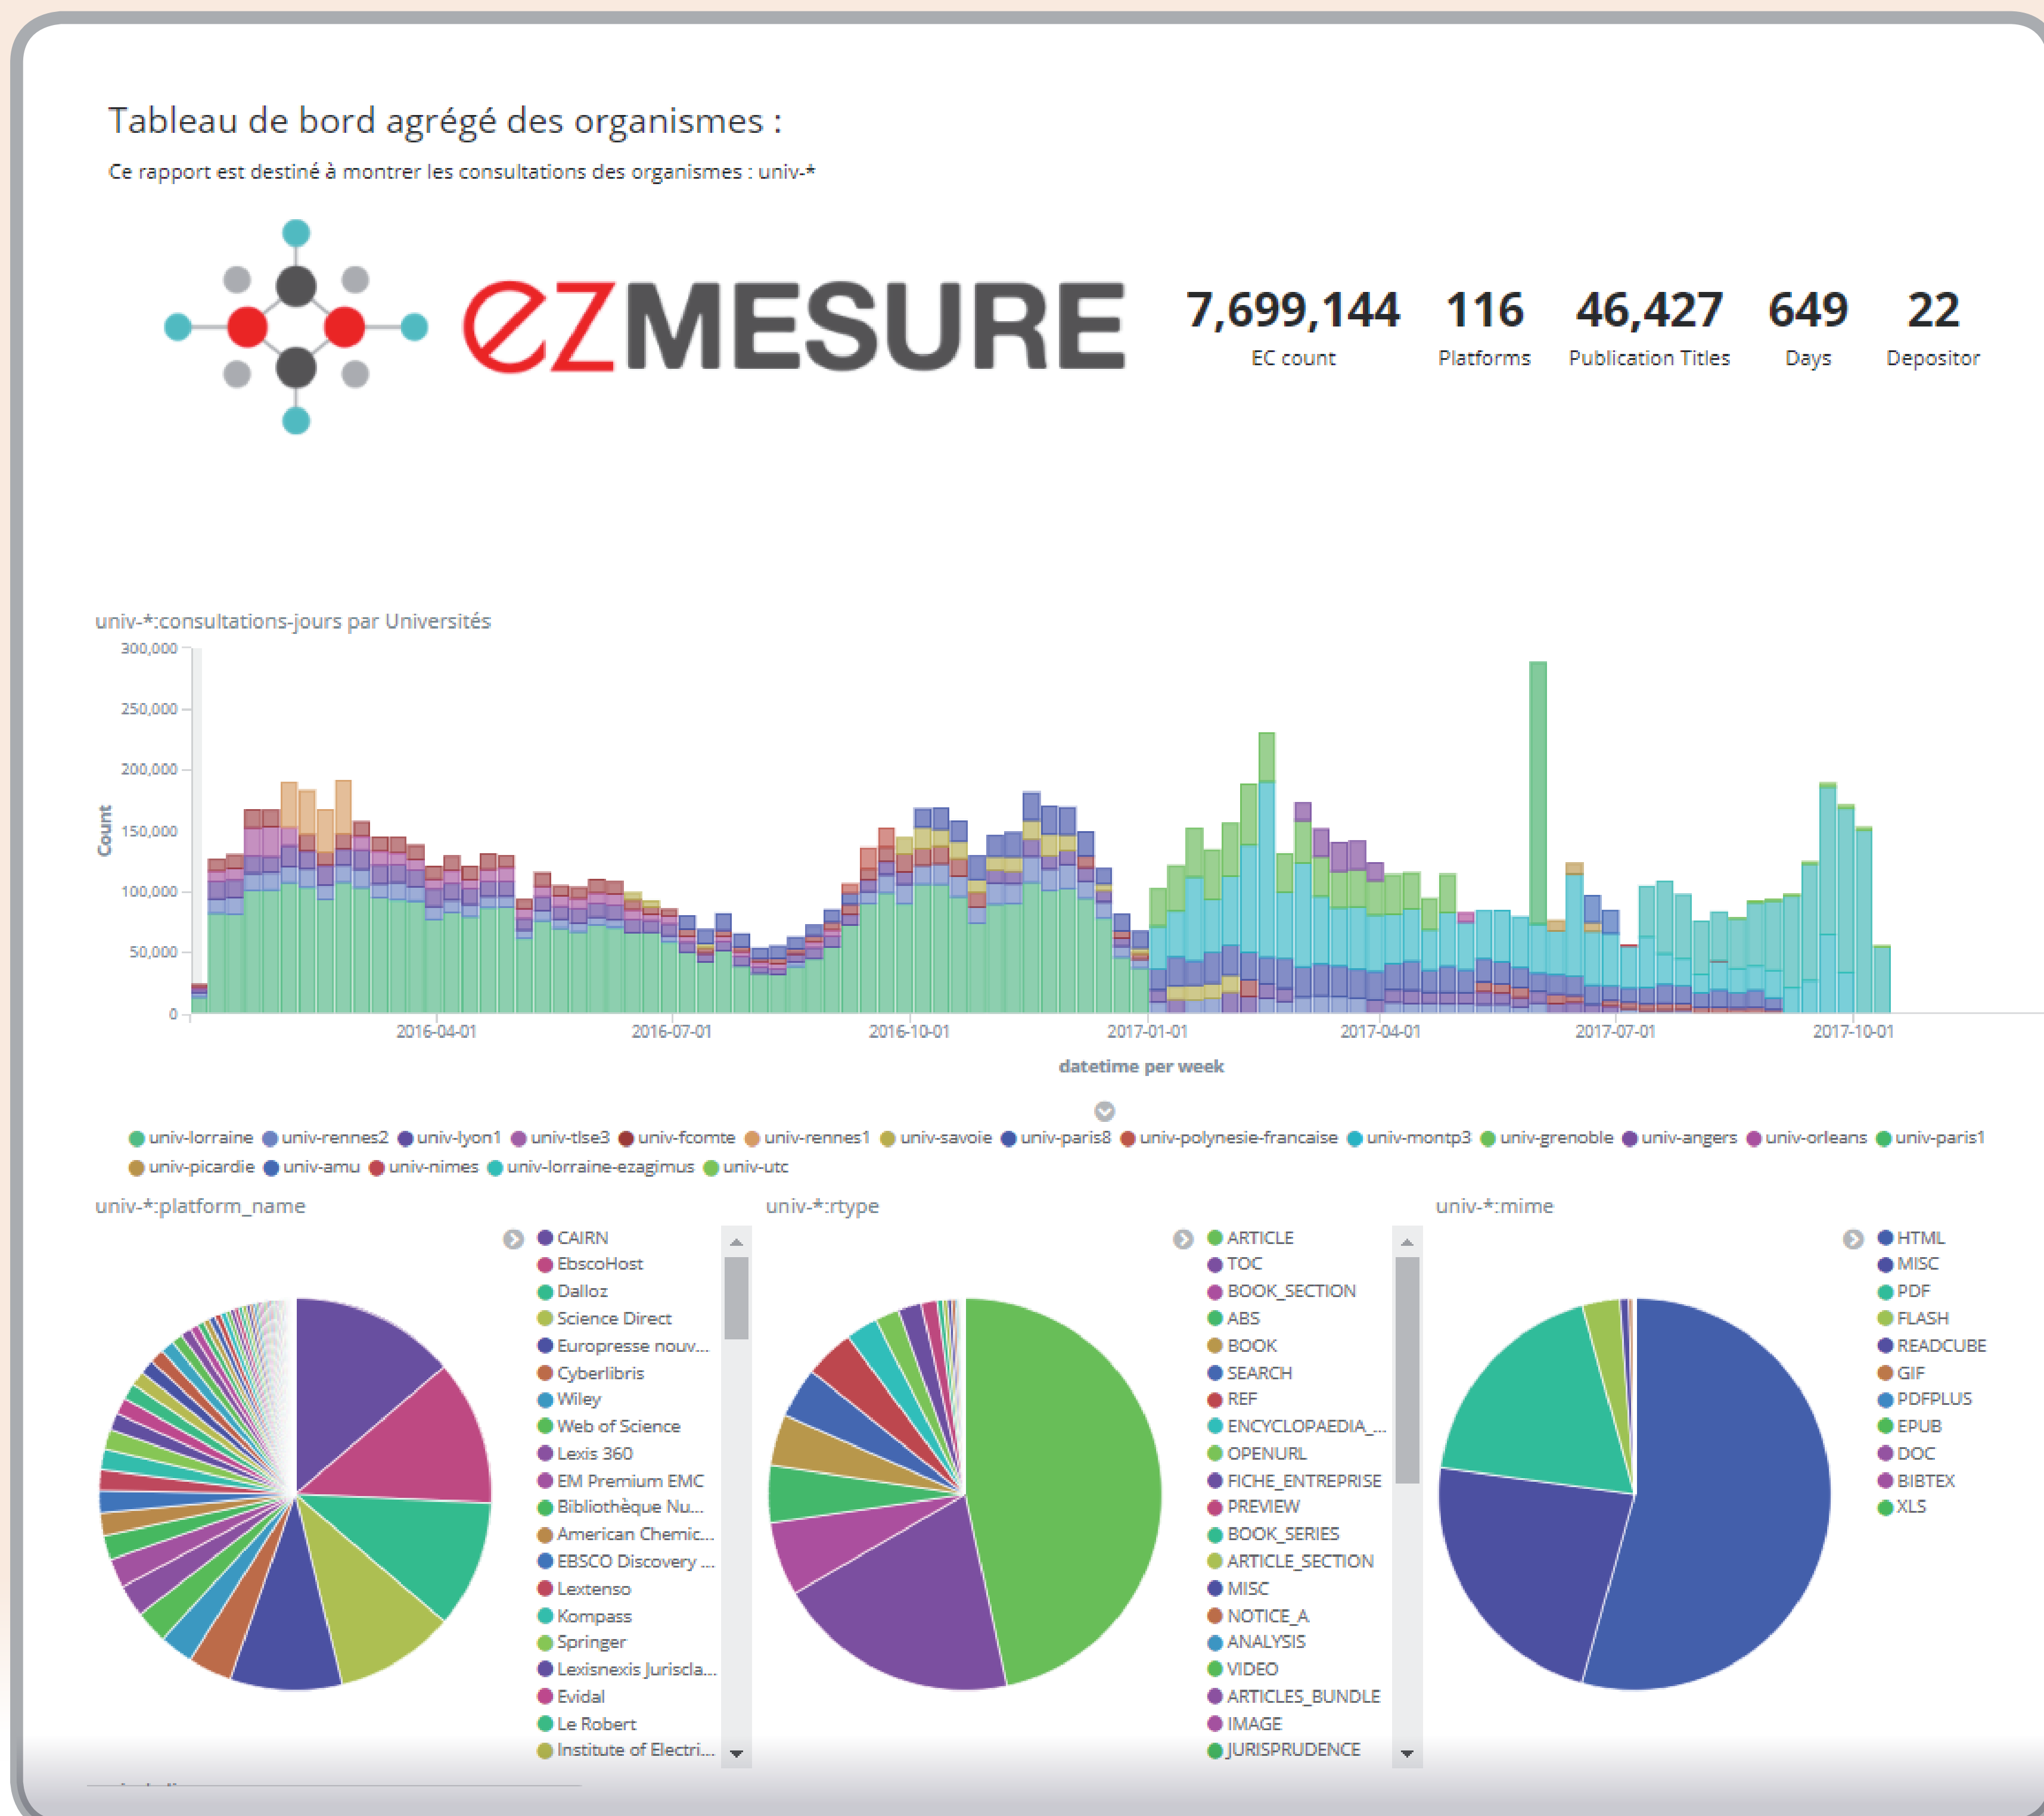

Each ezPAARSE can upload data results to ezMESURE to be visualized and archived.

Each institution can have access to a dynamic and tweakable dashboard.

The ezPAARSE data which comes from the HER institutions is indexed and archived by ezMESURE.
